

Furniture Cut Sheets and Narrative

What follows are the furniture and fit-out specification documents for the Union County Government Complex.

In this document, the workspace types will be described including relative sizes, finishes, power/data requirements, as well as requisite accessories. The quality and type of finishes of Workstations and Offices varies between buildings to support the functions and respective needs of each of the County Departments.

Administration workstations need to be durable but include fabric and laminate finishes. Workstation finishes in the Human Services building must be non-porous, durable, and highly cleanable.

Similarly, offices up to approximately 130 SF maintain a similar differentiation between Administration and Human Services type finishes. While all Directors, the Commissioner Chair and County Manager offices are outfitted with the highest level of finish.

Each office and workstation have been assigned a coded designation and tagged on the Bridging Document Furniture Plans. Those tags correspond to the furniture specification sheets which follow here and describe the components of each workspace and furnishing.

Example:	WS-02A	Workstation, Type 02, Administration (Building 1)
	PO-03H	Private Office, Type 03, Human Services (Building 2)

Finally, the preceding sections of furniture specifications outline durability requirements, installer experience, warranties, etc.

Given these buildings and their furnishings are intended to last generations, it is paramount that the fit-out furnishings are robust and durable.

The sections following this introduction are organized into the following sections:

- Workstations and Offices
- Seating
- Tables (Café, Training, Conference)
- Files/Storage
- Casework
- Accessories

Please note: any dissimilarities between room dimensions or furniture quantities shown in this document versus floor plans, floor plans govern. BASIS OF DESIGN is Steelcase – equivalent manufacturers are listed in preceding specification sections.

Workstations and Private Offices

WORKSTATION

WS-01H

BASIS OF DESIGN: STEELCASE ANSWER

TAG

WS-01H

Description

Workstation: 54"H panels with 12"H clear glass tile, power at base, 2 duplexes per station, hardwired infeed per cluster, 28 x 58" height adjustable desk with integrated leg, 12"W x 30"D x 42"H locker, 36"W x 18"D x 22"H open storage, 36"W x 18"D x 22"H lateral file, panel hung slim shelf, markerboard tiles, tack-able tiles. All closed storage to lock. Key alike.

Include, and price separately:

- (1) task chair (CH-02)
- (1) dual monitor arm (M-02)
- (1) Tray Cable Management with smart straps; and Power strip, 3-Power at desk, 1-Utility/1-Female Plug/Tray, Standard NEMA 5-15 3-Prong Power Plug Type with 8' cord (M-01)

Finishes

Steel tiles, HPL Work-surface, Steel storage, Grade 1 finishes.
